REAL ESTATE.

VALUABLE TIMBER LAND FOR SALE.

The undersigned would like to sell the following described parcels or tracts of land, and he gives this notice that parties wishing to buy may avail themselves of the favorable month of March in which to make explorations, viz:—

PISCATAQUIS COUNTY.

One undivided fourth part of two College Townships. Public lots in the same.	2000 acres.	
Gore in Township above and adjoining,	3173 acres.	
Half of East half Township	No. 3, R. 12	
East half Township	No. 4, R. 12	
Half of S. W. Qr., undivided,	No. 5, R. 10	
Half of N. W. Qr., "	No. 5, R. 10	
¾ of Township "	No. 6, R. 10	
½ of Township "	No. 7, R. 10	
Whole Township "	No. 6, R. 11	
N. W. Qr. Township "	No. 7, R.	
⅓d Township "	No. 9, R. 1	
⅓ Township "	No. 9, R. 12	
⅓d Township "	No. 9, R. 13	

PENOBSCOT COUNTY.

North half Township undivided.	No. 1, R. 6
4500 acres in Town of Winn.	
10,000 acres in	No. 3, R. 6
6514 acres in Town of Edinburg.	
500 acres in Town of Patten.	
5760 acres in S. E. Qr. Township	No. 8, R. 7
6318 acres in Kennebec County.	

All the foregoing described lands are well worth the attention of purchasers. They are worth twice as much in the hands of twenty persons, as they are to the subscriber, upon the same principle that one thousand acres of land can with much more profit be cultivated by ten than by one man. The undersigned wishes to avoid the trouble incident to operating or permitting said lands.

By calling on Hon. JOHN A. PETERS prices will be given at which these lands will be sold.
RUFUS DWINEL.
Bangor, March 15, 1867.

SALE OF TIMBER LANDS,
FOR BATES COLLEGE.
LAND OFFICE, BANGOR, March 7th, 1867.
NOTICE IS HEREBY GIVEN, in pursuance of "Resolve to carry into effect chapter two hundred eighty-four of the resolves of eighteen hundred sixty-four in favor of Bates College," approved February 28th, 1867, that Townships numbered 8, Range 17, and 10 Range 17, W. E. L. S., situated upon the Upper Saint John River, excepting the South East quarter of the last named township, will be offered for sale by public auction for the benefit of said College, at the Land Office in Bangor, on Wednesday the 11th day of September next, at 12 o'clock noon.
One third cash, and satisfactory notes payable in one and two years, secured by mortgage on the premises, will be received in payment.
ISAAC R. CLARK,
mch 9 ts Land Agent.

FACTORY PROPERTY FOR SALE OR RENT.
A most substantial new building 114 by 41 feet, situated in Sangerville Village, finished in the best manner throughout for a Woolen Factory,—with driving wheel in, and one main line of shafting ready to be put up. Dye House 36 by 24 feet, furnished with large tubular boiler, together with water privilege, dams and flues complete.
The above property is exempt from taxation for six years, and is offered for sale or rent on terms which will be made entirely satisfactory to any party who will put in machinery and carry on the Woolen Manufacturing business.
For further particulars apply to
COL. WILLIAM OAKES,
Sangerville Me.
October 29th, 1866. dtf

DIRECTIONS
FOR
M[illegible] SOAP
With your Waste Grease!
Penn'a. Salt M'fg. Co's,
RENOWNED
Saponifier!
2 Cents only for every pound of Soap.
DIRECTIONS.
Dissolve one box of Lye in 24 pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off of the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold, cut into bars, which will be fit to use in about 10 days.
BEWARE OF COUNTERFEITS.
Be particular in asking for PENN'A. SALT MFG. CO'S. SAPONIFIER.

Howard & Co., and Tremont WATCH, all of which are adjusted to heat and cold—and all the lower grades of *AMERICAN WATCHES*, in gold and silver cases, which will be sold at lowest prices.
All kinds of Watches repaired and warranted.
may 13 WALTER F. WEEKS.

ROBBINS'
Vegetable Panacea.
IF there is a Panacea in the world it is this preparation. It is safe and simple, particularly useful as a convenient family medicine, in sudden Colds, Febrile Attacks, Hoarseness, Sore Throat, Coughs, Cramp and Rheumatism, Sprains, Pains in the side, stomach, bowels, or other parts of the body, Headache, Toothache, Cold hands and feet, Diarrhoea, Dysentery, Cholera, Fever and Ague, Chilblains, &c. It rarely fails to bring out the eruptions in measles and canker rash; and these diseases are often cured with this Panacea alone. And for that most terrible of all diseases, DIPHTHERIA, this preparation has not its equal in the world.
This medicine is of recent date, but has been extensively used for the cure of the various diseases for which it is recommended, and it has proved, over a wide country, its immense superiority over every Panacea known. It is the best Pain Expeller in use; is highly recommended for the instantaneous relief of all pains and aches the flesh is subject to.
All persons who are subject to SORE THROAT, which, neglected, is very apt to result in that dreadful disease, DIPHTHERIA, should have this simple remedy continually by them, particularly those living away from medical aid.
Directions with each Bottle. Price 35 cents. Sold by dealers in medicines everywhere. Ask for "ROBBINS' PANACEA," and take no other.
Prepared only by L. M. ROBBINS, Rockland, Me.
Sold in Bangor by B. F. BRADBURY and WARREN L. ALDEN & CO.

NOTICES.

Sale of Public Lands.
LAND OFFICE,
BANGOR, June 1, 1867.
SEALED Proposals will be received at the Land Office in Bangor on the first day of September next, at 12 o'clock noon, for the purchase of the following townships or tracts of land belonging to the Permanent School Fund of the State.
Proposals will name a sum not less than the minimum price fixed in the schedule: terms of payment will be one-third cash, and notes payable in equal instalments, in one, two, and three years from date of purchase, with annual interest.
Township No. 7, R. 9, W. W. P., Piscataquis county, 35 cents per acre.
Township No. 4, R. 3, N. B. K. P., Somerset county, 30 cents per acre.
Township No. 4, R. 4, N. B. K. P., Somerset county, 30 cents per acre.
Township No. 9, R. 17, W. E. L. S., Somerset county, 30 cents per acre.
Township No. 12, R. 10, W. E. L. S., Aroostook county, 20 cents per acre.
Township No. 13, R. 10, W. E. L. S., Aroostook county, 30 cents per acre.
Existing permits for cutting lumber upon either township to be respected by the purchaser according to terms named therein.
ISAAC R. CLARK,
june 24 Land Agent.

Sale of Timber and Lumber
IN AID OF
WESTBROOK SEMINARY.
SEALED PROPOSALS will be received at the Land Office in Bangor, for the timber and lumber upon the East half of Township numbered nine, in the third range of Townships West from the East line of the State, in the County of Aroostook, for the term of ten years from and after the twentieth day of August next.
Proposals will state the sum to be paid in one-eighth section, either continuous or alternate, beginning at the North East corner of the township, taking sections in course Westerly or Southerly across said township, or may state the sum to be paid for the entire half township in sections according to the terms of the Resolve entitled "Resolve in favor of Westbrook Seminary," approved February 25, 1867.
Terms cash, or approved notes payable in one, two and three years, with annual interest.
ISAAC R. CLARK,
Land Agent.
Land Office, Bangor, June 7th, 1867. jn20

City Marshal.
Bangor, May 1st, 1867. m4

FIRE! FIRE!! FIRE!!!

DELAY MAKES THE DANGER. Till now Fires have only been met by means *too dilatory, too late, and too cumbrous.*
The Extinguisher,
A Self-Acting, Portable Fire Engine,
Is inexpensive, and so simple in its construction that the mere turning of a cock puts it into full action.—*Harmless to life, health, and property.* Always ready for instant use. So portable that a man carries it without hindrance to active exertions. For *Manufactories, Warehouses, Railway Depots, Public Buildings, Hotels and Private Residences*, it is indispensable; and for *Steam and Sailing Vessels* it is as vitally necessary *as a life-boat or a life-preserver.* So simple that a boy can charge or manage it.
It is endorsed by the *Chiefs of Fire Departments* of BOSTON, NEW YORK, and numerous other cities and towns in the
UNITED STATES AND EUROPE.
Send for a Circular. Address,
American Fire Extinguisher Company,

Despatches to the Evening Times.

SAN FRANCISCO, July 25.
The ship David Crockett from New York has arrived and reports:
April 8th, in lat. 36:80 N., lon. 45:22 W., passed a water-logged ship with nothing but her foremast standing—full poop, forward house painted, swinging davits on her quarter painted black, rail broken away amidships and bulwarks gone. Had the appearance of having been in that condition some time.
Flour—Superfine $5,50; extra $6,50.—What—receipts liberal—sales at $1,75@1,80. Burley—active at $1,25@1,35.
Legal tenders, 72½.

LOUISVILLE, Ky., July 22.
The tobacco crop will not exceed two-thirds the usual quantity. Prices are advancing.

NEW YORK, July 23.
The Post's special Washington dispatch says:
Efforts are making to induce the President to remove Secretary Stanton, Gen. Grant and the five district commanders.
The President is preparing a proclamation warning all persons in the United States from joining in any unlawful expeditions against Mexico.
The Judiciary Committee closed the impeachment investigation this morning.

NEW YORK, July 22.
The money market is extremely easy and call loans are 3 a 4 per cent. on governments and 5 a 6 per cent. on stock collaterals.
The supply of idle capital in Wall street is unusually abundant and largely in excess of the demand. Prime paper 6½ a 7 per cent.
The railway market very was active and buoyant with a general improvement in prices.
Governments continue in demand and prices are higher.
Border States stock firm.
Steamships shares are in demand and are steadily advancing.
Among the Express shares the Merchants' Union sold at 14 and 15 was the best regular bid.
The others were strong and in good demand.
Miscellaneous stocks firm.
Coal stocks quiet and steady.

Original and Selected.

—The Nashville Despatch says that large quantities of Cincinnati whisky are being shipped to Robertson county, Kentucky, which is famed for its good whisky; from thence it is reshipped to all parts of the country, North and South, as fine, prime old Robertson County whisky, and is as eagerly sought for as the genuine article, and brings as good a price.

—It is stated that excavations for the new suspension bridge across the Niagara River have been begun on both sides. The talk is that the bridge will be ready for foot passengers before the year is out.

—A young man named Francis Chatterson, from New Haven, put his hand out of the car window of the owl train, near West Brookfield, on Friday night, to knock the ashes from his cigar, when it was struck by a post and his arm broken.

—A recent attempt to form a Young Men's Christian Association in Bridgeport, Ct., proved a failure. Some of the pastors are opposed to a movement of the kind, preferring to have their young men labor through and for their particular churches.

—The Christian Witness bears witness against female extravagance in the following style: "We have long felt that the religious press ought to notice the present extravagance in dress which many Christian women run into, and which seems to be dictated only by vanity and a love of display, little in accordance with the spirit of the Gospel."

—It is stated that the council of the Grand Chancelry of the French Legion of Honor has been convened for the purpose of degrading Col. Miguel Lopez, the traitor who sold Queretaro and its defenders to the liberals. Lopez had been appointed to the rank of officer in the Legion by Marshal Bazaine, in consideration of his courageous deeds in some expeditions against the liberals.

—A lady called at a store recently and inquired of the young clerk for "crewel." Not willing to appear ignorant, nor exactly comprehending her, he handed down a regular twisted cowskin. "Why," said the lady, "that is not what I want." "Well," replied the boy, "that is the cruelest thing I know of."

—Messrs. Toon, Davis and Barrick, acting under the authority of the agent of the Peabody fund, have issued a circular through the Atlanta (Ga.) Era, in which they propose that if the citizens of that city will raise six thousand dollars for schools, five thousand will be added from the fund. Separate schools are to be provided for colored pupils.

—The American flag was torn down from the flagstaff of the Freedmen's Bureau office at Florence, Alabama, on the night of the 6th inst. The citizens called an indignation meeting, offered $100 reward for the arrest of the perpetrator of the outrage, and appointed a committee to replace the flag, which was done the same day.

—The Providence people are troubled about the quality of their drinking-water. The Press says the wells are gradually failing in quality, and that before many years the water will become so impregnated with foreign substances, vegetable and and animal matter, as to be useless.

—At Galveston, Texas on the 4th of July, an American flag was thrown across the street. The street cars approached; a lady therein saw the "hateful thing." Curling her nose skyward, she said: "Driver, are you going under that flag?" "Well, mum" he answered, "I don't see how I'm to get around it." "You can't take me under it. Let me get out. Stop on the other side." Out she got and trudged around for half a block to avoid the beautiful flag.

—An old lady in Trenton, N. J. read an account of the bursting of a grindstone used in a straw factory, and became alarmed lest her grindstone standing in her cellar should burst in a similar manner and blow up the house. She had the "dangerous thing" removed.

—The imperious house at Hapsburg is making fearful atonement for deeds done in the body. Haynau's crimes are not forgotten, nor are those of the Archduchess Sophia. It was she who ordered a score of Hungarian noblemen to be put to death, and wore a ring with their names engraved on it in commemoration of the crime.

—It is reported that the cholera has appeared in Greenwood on the Yazoo river, Mississippi. Over thirty freedmen had died of it. There were no cases among the whites.

—It was reported in Paris that before he entered Queretaro, Maximilian shipped for Europe a history of the French expedition to Mexico, written by his own hand, and that the manuscript is in the possession of the Duc d'Aumale for publication in the French capital.

—The Chinese papers are calling attention to the coolie trade as practiced by the Portuguese, and call upon civilization to put a stop to it. They also give instances of kidnapping of girls and women who are carried off in various ways for purposes of prostitution. Men are violently carried off and shipped to South America as coolies.

—The river has washed away the neck of land, which was about three hundred yards wide, above Sidney, or Hamburg, Iowa, leaving that town on the Nebraska side of the river, and adding some thousand acres of land to that State.

—The U. S. steamers Iroquois, Unadilla and Aroostook were at Simon's Bay, South Africa, May 28. Capt. English, of the former, reports that the deaths from fever at Mauritius, according to news received at Simon's Bay, had reached 17,000.

—Chief Justice Chase has decided that the right of the United States to collect internal revenue taxes on lotteries does not authorize the carrying on of such affairs where the laws of States declares them illegal.

—Emigrants have been seeking Minnesota at the rate of a thousand a day, recently.

—It is reported that Alexander Dumas, jr., will deliver a series of lectures in New York.

—The original manuscript of Sir Walter Scott's poems have been sold at auction recently for high prices.

Mrs. Jefferson Davis passed thro' Charleston, S. C., on her way to Savannah, the other day.

—There is a great freshet in the Mississippi river at Minneapolis, Minn.

—In the Surratt case on Saturday a witness was introduced who swore to seeing Surratt in Elmira, N. Y., on the day of the assassination.

—The missionary packet Morning Star arrived at San Francisco on June 10th, from a cruise among the Marquesas Islands, and reports the mission stations in a flourishing condition.

—Frogs have become a regular dish at the Chicago Hotels. Four dollars and a half a day is the next most important item of interest at the same place.

—A little girl died at Newark from burns received from lighted fire crackers thrown upon her on the 4th of July, by a malicious boy.

—In Bridgeport, Ct., the other day, a lad fell into water and was frightened into a fit, so that, respiration being suspended, he floated and was saved.

—There is a Union Republican Club in Augusta, Georgia, numbering 400 white and 1600 colored voters. Foster Blodgett, the Mayor, is said to be President of this club.

—The bridge across the Mississippi at St. Louis will be the finest in the world, and will cost $5,000,000. The work will be begun immediately, and will be completed in three years.

—A gentleman, near Peoria, Ill., has 5000 grapevines, which it is estimated will produce fifty bunches of grapes each, weighing a pound apiece.

—A large lynx was killed in Milwaukee, near the court house square, on the 13th. How this denizen of the forest came to stray into the heart of that city is a mystery to the citizens.

—Texas seems to be badly in need of reconstruction. An officer of the Freedmen's Bureau had to raise a company of 100 freedmen to arrest two of the ringleaders of a desperate gang.

—It is a mistake to suppose that girls now-a-days knead dough as much as they need husbands.

—The Junction (Kansas) Union says that the colored soldiers make good Indian fighters. They are not so much in the habit of deserting as white soldiers.

—A citizen of Philadelphia had occasion to send a despatch to Alexandria, Egypt, and received a reply in twenty hours from the time it was despatched.

—The "stone vessels" sunk in Charleston harbor did no permanent injury. A vessel from England, with railroad iron, entered last Tuesday, drawing 18½ feet, which is eighteen inches more than any vessel previously arrived.

—In Charleston, S. C., on the Fourth, over 500 colored people rode in the cars, and not a single act of rudeness or impropriety was committed by them.

—Peru is in a very unsettled condition. Robbers infest the country, and the road from Callao to Lima, is again in possession of bandits, rendering it unsafe to travel even that short distance.

—Steel boilers, it is said are coming int use, on French locomotives. Twelve express engines, with steel boilers, are employed on one railroad leading out of Paris, fifteen on another, and several on other roads.

—A convict in the Joiliet (Ill.) prison hid himself under a sink with the intention of escaping during the night, but died from suffocation, instead.

—The army worm is devastating the cotton fields in Mississippi. It adapts Sherman's device of living on the country.

—Census returns of several judicial districts for 1867 indicate the present population of Iowa at over one million.

—George William Curtis made an elaborate female suffrage speech in the New York Constitutional Convention.

—A Norfolk paper says that apples are a perfect drug in that market.

—A boy died a few days ago in Huntingdon, Pa., from eating cherry stones.

—The Dayton (Ohio) Empire is dead. It died of Vallandighamism.

WHEELER & LYNDE, PROPRIETORS

WM. H. WHEELER, EDITOR.

☞Business letters should be addressed to the Publishers. "Wheeler & Lynde."

WEDNESDAY, JULY 24, 1867.

REPUBLICAN STATE NOMINATIONS.

FOR GOVERNOR.

Joshua L. Chamberlain.

Resolved, That our national indebtedness should be funded as speedily as the necessities of the Government will allow, and at the lowest practicable rate of interest, always maintaining inviolate all pledges of the national faith.

Resolved, That the law in relation to taxing U.S. bonds and stock in National Banks should be adjusted by Congress, on constitutional principles of equity, and that whatever municipal taxation is imposed on stock in National Banks should go to the advantage of the cities and towns in which said bank stock is owned.—*Republican State Convention.*

Editors' and Publishers' Convention.

The annual meeting of the Editors and Publishers of Maine, will be held at Biddeford, on Wednesday and Thursday, 7th and 8th of August next. The business meeting will begin at 10 o'clock, Wednesday morning. The arrangements contemplate a social reception Wednesday evening, by the press of Biddeford and Saco, and a dinner Thursday, with invited guests, at Old Orchard Beach.

Arrangements have been made for free passes for editors and publishers attending the convention, over all railroad lines in the State.

B. W. RICHARDSON,
Corresponding Secretary.

THE PRESIDENT'S NEW DOCTRINE. The Providence Journal calls attention to the President's message broaching the doctrine that the effect of the Reconstruction Acts will be to saddle the United States Government with all the debts owing by the rebel States before the rebellion, amounting, it is stated, to a hundred million of dollars;—showing satisfactorily, as we think, that it has no foundation in public law. Congressional despatches inform us of the somewhat significant fact, that Mr. Julian's resolution in the House, in rebuke of this assumption, was carried by a strictly party vote of one hundred Republicans to eighteen Democrats. In other words, the doctrine is not merely the individual belief of the President, but it is accepted by the minority party in Congress.

This new pretension, thus apparently indorsed by the party now struggling for supremacy in the nation, is by no means unattended with danger.

It is true, the United States could not properly acknowledge any rebel organization as being even a *de facto* government; but, in respect to the rest of the world, the existence of a *de facto* government over these rebel States is an indisputable fact, and whether it were a legitimate government, or a mere usurpation, as stated in our remarks of yesterday, it was attended with the consequence that the obligations contracted by it, though void as against the nation rebelled against, remain valid and binding, under the rules of public law, against the States that contracted them, and, on the state of internal transition being over, may be properly enforced against any succeeding government that may be established over them. Let it, then, only be concealed that by virtue of these Reconstruction Acts, it is the United States Government that has become the established government over these States, and properly representing their respective sovereignties, and it will necessarily follow that, as the successor of the governments of those States, it will be liable not only for the debts incurred by them before the rebellion, but also all the debts contracted by them in its prosecution. The doctrine now set up, if once admitted, will thus be an entering wedge for the assumption by the United States of the entire rebel debt.

We may now comprehend, if this have been the intended tactics of the pro-rebel party, why the rebel debt has still some market value among the shrewd and cautious capitalists of Europe, and how eminent foreign jurists have been found (if report speaks truly), bold enough to hazard the opinion that this debt might be hereafter enforced against the Federal Government.

We now call attention to the dangerous aspect this new doctrine will at once assume if the party that has apparently adopted it shall come into power.

The Washington correspondent of the New York Express says that the veto message was submitted to the Cabinet, and approved by all except Secretary Stanton. Another correspondent says it is asserted, on excellent authority, that an elaboration of the President's views on the Southern debt question was cut out of the message at the Cabinet meeting.

The latest official accounts from Crete give terrible reports of the Turks. Omar Pasha, in retaliation for the severe punishment of one of his spies, crucified a Greek Priest. He besieged a cavern in which the Greek women and children had taken refuge, and closing it with stones, left them to die of starvation. He boasts that he will exterminate the Cretans. There is, however, no probability of the success of Omar Pasha.

At a reconstruction meeting held near Jacksonville, Miss., July 4th, Albert G. Brown, who was Jeff. Davis's colleague in the United States Senate, presided, and said: "He had spent thirty years in the public service. He was what had been called a 'proscribed rebel;' he would hold no office if every man in the State would vote for him. His locks were whitening for the grave. He would advise the holding of a convention and the acceptance of the terms tendered by Congress, without delay or cavil."

THE RIOT IN TENNESSEE. General Carlin's report to Gen. Howard on the Franklin riot fixes the whole responsibility of the disgraceful affair upon the Conservatives, and asserts that the murderous assault upon the colored league was preconcerted. It also declares that the Mayor of Franklin knew there would be an outbreak, and that the town was voluntarily surrendered by the civil authorities to mob violence. The General expresses the opinion that the punishment of the guilty participants may be safely left to the Circuit Judge and the District Attorney.

FARMING IN NEVADA. The Humboldt (Nevada) Register says: "The barley crop alone this season is estimated at not less than one million pounds. The wheat crop will be about one-third of that amount. The potato crop will be equal to all demands for home consumption. The value of the barley, wheat and potatoes, at a low estimate, will not be less than one hundred and fifty thousand dollars, and not a [illegible] part of the [illegible] the county is under cultivation. The [illegible] will not be near as large [illegible] fact that there is [illegible] of the [illegible] county no less than [illegible] fine potatoes [illegible] rot for want of a [illegible] tities that have been fed to hogs."

[We have been shown an extract from a letter written Feb. 18th, by Charles E. Stephens, formerly of this city, who is now at the Volcano House on the island of Hawaii.]

The volcano of Kilanea is on the summit of the mountain bearing the same name, 4100 feet above the sea level, in the southeast part of the island of Hawaii.

To the right of it are "Mauna Loa" and "Mauna Kea"—the one one 14,000 feet above the sea, and the other 13,900.

The crater of the Kilanea, or "Lua Pele," is in shape an irregular circle, 2½ miles in circumference, and surrounded on all sides by high walls, varying in height from 200 to 1200 feet.

The Volcano House is 900 feet above the surface of the crater. The descent into the crater is by a winding "trail" down the side of this high wall, and along the edges of frightful chasms, and down the face of steep "paris," till you at last reach the burnt and blackened domain of the "Goddess of Fire," "Madame Pele."

A person's first feeling on stepping from the solid earth to the lava, is one of fear, but it soon wears off, and one forgets the danger, in viewing the countless wonders spread out like a panorama before the eye.

There are in this crater six lakes or cauldrons sunk in the floor or bottom. The largest of these is 1800 feet in circumference, and the smallest 200. They are filled with red-hot lava, which is boiling and surging and flowing from one side to the other. The heat is intense, and the smell of sulphur very strong.

Seen, as I have seen it, at the dead of night, the whole sky lighted up with the glare of these immense furnaces, and the lava twisting, boiling and dashing against the sides of the lake, as though trying to free itself from restraint, the sight is awfully grand.

The edges of those lakes are carpeted with what the natives call "Pele's hair," or more properly, blown lava. It is a light brown shade—some of it is almost white, and resembles blown glass, being very brittle and fine. The lava while boiling rises in little fountains, like spray, which is blown by the the wind into the finest shreds, and falls on the bottom of the crater. During a high wind it has been found 17 miles from here, and even farther.

After crossing the seamed and chasm-riven plain, you come to the place called by the natives "Hale-man-man," wherein they were wont to throw the bones of their dead chieftains, to the end that no vulgar feet might ever tread above them; and notwithstanding their advance in civilization, and the labor of the missionaries, the custom is kept up to this day. It is supposed that the great warrior, "Kameahmeaha" the First, found a resting-place in the unknown depths of the "Hale-man-man." In this place, called by some the South Lake, the action of the lava is always the same. Great bubbles rise in the centre of it, and swell and grow to an enormous size, then suddenly bursting the lava will fly fifty or sixty feet into the air, and fall back into the lake with a splash that makes a person think of leaving in a hurry. This remains bright and clear for a few minutes, then cools over and becomes black, only to swell and burst again.

In the other lakes the action is less violent. They will suddenly cool over, and as suddenly the fire underneath will force its way through and split, leaving a dazzling streak hundreds of feet in length. From this will branch others—some perfectly straight, and others will sweep around in the most graceful curves, making the whole lake a gorgeously brilliant mass of fiery lava. Again, the force of the gasses and fire will heave the centre, and huge pieces will lift, upturn on their edge, and sink into the cauldron like cakes of ice in a river, during a 'thaw.'

The tints and shades of this lava are beyond my power to describe. I have seen in the States the Aurora Borealis, and here on this mountain the most beautiful rainbows, but their rays and colors all fade into insignificance beside the exquisitely rich and glorious colors of the lava in a flow or break-up.

There are in the crater numerous "cones," or "smoke-pipes," which are continually sending forth clouds of smoke and sulphurous vapor. Occasionally they discharge immense quantities of molten lava, which flow over the surface of the crater. On the 25th of January, 1867, there was a "flow" of this kind, which covered a portion of the crater. It broke out at the foot of the east wall and flowed south and west over the level floor, covering a portion of it three miles in length and one in width. It commenced at four o'clock in the afternoon, and by ten at night had covered the extent of surface above noted down. The sight was one never to be forgotten by those who witnessed it. The lava flowed on in an irresistible torrent for perhaps a hundred yards without interruption, then meeting another "cone," would dash itself against the sides. Again its course would be arrested by an immense chasm, hundreds of feet in depth, into which it would pour a cataract of liquid fire. In time the lava would fill this chasm, and flow on and on till its course was finally arrested by the immense wall at the farther end of the crater. This "flow" lasted for three days, when it cooled over on the surface and became black and hard. To borrow from the letter of a celebrated Californian writer, who witnessed something similar in June last, it looked like "*a railroad map of the State of Massachusetts, done in chain lightning on a midnight sky. Imagine it! Imagine a coal-black sky, all crossed and streaked with fierce, jagged lightning.*" The heat, even on this high bank, was intense, and we could easily read the finest written letter by the light. Just now, as I looked up from this page, I could see the glare of this immense sea of fire, like a block of burning buildings in the distance.

This is, without doubt, the largest active volcano in the world. Even far-famed Vesuvius must, accordingly, to those who have explored its wonders, give way and take a back seat, when "Lua Pele" lights up her wonderful cauldron.

I was the first one to cross the new "flow," as my guides were away, and there was a party of ladies here who wished to make the trip. I acted as guide for them. It was intensely hot, though quite hard; and in the cracks and seams we could see the fire torching up, within four inches of the surface over which were obliged to pass.

The most beautiful specimens can be found here, dazzling crystals in every fantastic shape imaginable. The lava while flowing forms itself into wonderful shapes. It is found resembling coils of rope on the deck of a ship—every strand and twist being perfectly formed and outlined in the black crust; and in other instances, the lava while flowing has met with some obstruction, and turned upward and "froze," as it were, before it had time to fall. It cools instantly, and these figures of lava, present a curious appearance.

[illegible] dear"—was brought here and consigned to her last resting-place in the "Hale-man-man." In olden times, before the missionaries came here and taught the poor heathen that there was a Heaven, their custom was, that when a chief, or any person of high rank, passed to the unknown shores their bodies were kept for a certain length of time. The flesh was then stripped from the bones, and then these bones were given to a man selected for the purpose, who conveyed them to this volcano for sepulture. On his return he was waylaid and murdered, that the secret of the dead chieftain's last resting-place might die with him; and although the murderous part of the ceremony has been dispensed with, not a month passes but some native comes here with the bones of some dead relation, which he consigns to the fiery depths of this immense furnace. And no native passes here without singing a chant to "Pele," and making her an offering of hair, tobacco, and even their clothes, to the end that she may use her supposed power in averting sickness and misfortunes from them.

GOLD IN WALRUSSIA. Intelligence is continually arriving from various sources of new facts in reference to the value of our recently acquired territory of Walrussia.

The latest is contained in a letter to Mr. Seward from Mr. Berry, of Oregon, who relates that a party of prospectors entering Russian American from British Columbia in 1862, found in the Stickeen river, three hundred miles from its mouth, gold and silver deposits of great wealth. He says "they worked with hand-rockers for eight days, and gained thirteen dollars and a half per day in native silver, and eleven dollars in the aggregate in gold. The silver was washed out in pieces sometimes as large as a quarter of a dollar. They also found rubies and agates, and on Bristol river, copper and coal indications.

Mr. Berry's letter to Secretary Seward is dated April 9, 1867, and if his report is verified, there will ere long be an *hegira* of Yankee miners and explorers from the northwestern territories to Alaska, somewhat similar to that from California to Nevada and Montana a few years since.

The only thing that naturally raises a doubt in this matter is the fact of this rich discovery having been kept secret so long, and not having been taken advantage of by Mr. Berry himself, or any of his fellow Oregonians, who are so "convenient" to this new El Dorado.

"DEAD HEADS." In answer to a lady correspondent who desires to know the meaning of the term "dead head," an exchange says: "The free tickets given to the press for the uses named are always paid for, and very liberally. As a rule, those who issue—not those who receive—these free tickets are the 'dead heads,' usually giving fifty cents for that which a five dollar bill would adequately pay for. So long as the newspaper editor is expected to give liberal notices of entertainments before they occur, and then follow these with a general puff after the show is over, he certainly has no place in the 'dead-head' classification. Indeed, in nine cases out of ten the editors would be glad to receive half pay for their work and pay two prices for the free ticket. They certainly would make money by the operation. We may add a few words on the general subject of advertising. The publication of advertisements is as much in the business of a newspaper as the publication of the news, and an editorial notice which is designed to supply the place of or add value to a regular advertisement has even less claim to a gratuitous insertion than would such an advertisement. Yet there are those who ask just such gratuitous notices, and this almost as a matter of right. If these same persons should be asked to make a present of a dozen yards of muslin to each purchaser of a merino dress, or a dollar's worth of sugar to whoever bought three pounds of tea, or half a dozen 'free tickets' to whoever engaged twenty seats at a concert, they would resent the demand as an insult. Yet why should not their wages be given away as freely as should and are the products of the editor's and publisher's labor and capital? The merchant makes his profit and living by selling his goods. The publisher of a newspaper makes his by selling his advertising columns, not by giving them away, and when he does thus give them in aid of a public library or other beneficent object, he deserves thanks as a public benefactor, and not insults as a 'dead-head.'"

Speaker Colfax will leave Boston for Calais next Friday. So says a Washington correspondent.

Only One Visit is Required,

to give the necessary instructions in the case.

CATARRH.

By DR. LIGHTHILL.

CATARRH is a disease of the mucous membrane of the nasal passages and those cavities of the head communicating with them. Insignificant as it appears in its first stages, it is apt in its progress to become instrumental in causing the loss or impairment of smell, taste, hearing, and sight, and in creating serious constitutional derangements, not unfrequently terminating in consumption.

SYMPTOMS.

At the commencement of the complaint the symptoms are those of an ordinary cold. A feeling of irritation, sensitiveness, heat or pain is experienced in the nose, the edges of which are red and swollen, and which is stopped up sometimes on one side, sometimes on the other, and occasionally on both, rendering respiration through it either difficult or impossible. This condition is accompanied by a frequent desire to sneeze, and a discharge of, at first, clear acrid water, afterward a profuse thick, yellowish, and extremely offensive matter. This secretion forms one of the most characteristic features of the disease, proves a source of the greatest annoyance and danger, becomes purulent and increased in quantity as the complaint progresses, and assumes an exceedingly fetid odor. It escapes not only by the nose, but passes into the throat, producing by its lodgment local irritation, and requires frequent expectoration, hawking, or scraping for its removal. As its passage into the throat is very much facilitated by a horizontal position of the body, sleep is frequently disturbed by a sensation of choking in consequence, and many are obliged to lie in a semi-recumbent position to obtain the necessary repose.

Owing to the inflammation and heat in the head the watery portion of the discharge often evaporates, and the rest, assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passage so as to embarrass respiration. Therefore, frequent efforts are required to remove them, either by forcibly blowing the nose or persistent hawking, a practice as disagreeable to the one affected as it is to those around him. That side of the incrustation which adhered to the mucous membrane will, after its removal, sometimes be found bloody, a fact which explains the force required for its dislodgment. During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast, or after some stimulant has been swallowed. Ulceration of the mucous membrane of the nose takes place frequently, sometimes attacking the bones, when small particles of this substance will occasionally be found mixed with the discharge.

The breath assumes an excessively fetid and sickening odor, and becomes occasionally so offensive as to render the patient an object of disgust to himself as well as to others.

The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passages very difficult, and oftentimes impossible, necessitating respiration principally through the mouth—a method very deleterious to the general health, but more particularly so to the lungs, which become weak and irritable. The voice loses its musical quality, and assumes a discordant, harsh, and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on taste. Occasionally, while blowing the nose, a crackling or bubbling sound is heard in the ears, and hearing becomes quite thick or stopped up, but returns suddenly, with something like a snapping sound. This phenomenon may be repeated several times, until hearing does not return, but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head, of every conceivable description, materially increasing the distress of the sufferer.

The eyes are apt to become weak, irritable, and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory, and produces irritability and moroseness of disposition, [illegible] less, and becomes weak and irritable; the appetite is capricious, and nearly always bad in the morning. [illegible] and prostrated. This is manifested by a disposition to drowsiness and sleep, an aversion to either physical or mental exertion, and a feeling of languor and weakness.

Not unfrequently catarrh proves fatal, either by debilitating [illegible] the patient, or by [illegible] through [illegible] and finally consumption.

An Effectual Worm Medicine

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child.—This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York.—Sold by all Dealers in Medicines, at 25 cts a box.

DR. SCHENCK'S

NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer: but by it he can tell exactly how far the lungs are gone, and what part also; whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by, and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1,50 per bottle, or $7,50 the half dozen. Mandrake Pills, 25 cents per box.

Verdict of the Faculty.

STIMULANTS INDISPENSABLE as MEDICINES.

The most distinguished physicians in the United States have recently been placed on the witness stand, and have, with one voice, declared that pure stimulants are valuable medicinal agents. This decision of the faculty refers especially to medicated stimulants, of which the purest and the best at present known is HOSTETTER'S STOMACH BITTERS. Its basis is the alcoholic principle of the finest rye grown in the United States, and its herbal ingredients comprise the extracts of a large number of plants, barks and roots produced in various parts of the world, and all noted in the countries to which they are indigenous for their powerful sanative properties. As an invigorant and tonic the value of the Bitters can scarcely be overrated. Hence its extraordinary effect in fever and ague and intermittents and remittents of every type. Its anti-bilious properties are marvellous. Persons of bilious habit, by taking a small quantity once or twice a day, may completely change their constitutional tendency to liver disease, and escape all the unpleasant consequences which arise either from the undue sensitiveness or the unnatural torpidity of the biliary organ. Chronic constipation is eradicated thoroughly and in a very short space of time by small doses of this wholesome regulator, taken night and morning; and for all the disorders which are superinduced by exhalations from decomposing vegetable and animal matter in the streets of cities, or the miasma of swampy districts, it is, when taken as a protective and preventive medicine, the most reliable of all safe-guards.

Window Blind Fastener

AND ADJUSTER,

(LEHBERT'S PATENT.)

WE wish respectfully to call the attention of Builders, Architects, and owners of Dwelling Houses to our new FASTENER and ADJUSTER, which we are now manufacturing, and which we claim to be the most convenient and useful as well as the most durable and simple blind fastener that has ever been offered to the public. *In fact it only needs to be seen to convince any one of its great superiority over all others.*

Its particular merits are as follows:—

1. The blind can be easily opened or shut by any person inside the room without opening the window, which in all other fasteners is such an inconvenience, especially in stormy or windy weather.

2. The ease with which it can be fitted to any blind or building, so that it does not require the moving of a screw or pin in order to remove the blind for painting.

3. The firmness with which it holds the blind in its position, whether opened or shut, so that the blind would have to be broken from its hinges rather than yield to any outside operator.

4. Its durability, which is so very evident from the simplicity of its construction, that it will never get out of order by any ordinary use, and will outlast any other fastener ever invented.

5. Its moderate price, which, compared with its great excellence, is so low, that every owner of a dwelling-house will not think the cost an obstacle to its adoption.

6. It is an ornament to every window and room. We consider it needless to say any thing more in regard to its merits, as it needs only to be seen to be appreciated.

The Surratt Trial.

A SUMMARY OF YESTERDAY'S PROCEEDINGS.

Later From Mexico.

Juarez Announced as a Candidate for Re-Election.

Ravages of the Yellow Fever in Texas.

Horrible Murder in Ascutneyville, Vermont.

A United States Express Agent Absconds with $80,000.

Republican State Convention in New Jersey.

WASHINGTON, July 23.

[The Surratt trial continued.]

Dr. John Erskine, sworn. Is a resident of Waterloo, C. E.; know Dr. McMillan intimately; his reputation as a man of truth and veracity was never questioned.

Ernest Racciot, and other neighbors of Dr. McMillan, testified as to his good character as regards truth and veracity.

Charles H. Blavin, recalled. It was on Monday night, April 17, 1865, that I picked up the handkerchief.

John T. Hollahan was called in.

Witness said that is not the man (Hollahan) who laid down and dropped the handkerchief; cannot see the slightest resemblance between Mr. Hollohan and the man who dropped it. Witness detailed at considerable length the particulars in connection with the finding and delivery of the handkerchief, etc.

At one o'clock the Court took a recess for thirty minutes.

Upon reassembling C. T. Hobart was recalled. Since testifying have seen Hollohan in Mr. Bradley's office; has no recollection of him except in Mr. Bradley's office. Hollahan is not the man who wanted to pass without paying and looks nothing like the witness.

In reply to a question by Mr. Bradley witness said that the statement that Mr. Bradley offered him a bribe was entirely false and the publication was made without his knowledge or consent. All Mr. Bradley said was that witness would be paid by the defence out of a sum of money that had been contributed for that purpose. No one connected with the defence ever made a proposition to pay any money for any testimony.

Weichman was recalled and repeated his evidence in regard to what occurred at Burlington. Hollohan did not lie down in the depot.

Joseph Wells sworn. Reside at Elkton, Maryland; know Stephen F. Cameron; his reputation was not good; his general reputation in Elkton was that his statements were not to be relied on.

A number of witnesses from Elkton were sworn and testified unfavorably as regarded Cameron's character for truth and veracity.

Michael McNamara, John H. Clark and a number of other residents of Washington testified that John T. Tibbetts character for truth and veracity was good.

At 3.45 the Court took a recess until morning.

NEW ORLEANS, July 23.

The Levee Convention to-day appointed a committee of three to call on Gen. Sheridan and see what can be done to repair the levee. The convention then adjourned.

Mexican news via Brownsville to the 18th has been received, but it is mostly anticipated.

Escobedo has been placed in command of the army and Juarez is announced as a candidate for re-election to the Presidency.

The Indianola Bulletin reports that the yellow fever is on the increase, and that there are cases in every house in town, and makes an appeal for assistance in the way of money and hospital supplies.

The fever has also broken out in Lavacia, Texas.

The Bulletin reports much suffering, many families being destitute and without protection, and requests contributions for the sufferers.

Accounts of the crops continue unfavorable. The worm has appeared in the cotton in Red River county, Alabama.

Accounts from the entire State of Louisiana, part of Mississippi, Alabama and Northeastern Texas report that there has been too much rain, and that the cotton worm was appearing.

There was no rain here yesterday or today. This is the first time for six weeks that we have had 48 hours dry weather.—The air is very sultry. Thermometer, 96°.

ST. LOUIS, July 23.

James W. Mathews, agent of the United States Express Company at Weston, Mo., absconded last week with $80,000 or $100,000 belonging to the Company. Mathews was a member of the firm of Mathews & Co, grocers, which made an assignment a month ago.

TRENTON, N. J., July 23.

The Republican State Convention met to-day and was fully attended, all the counties in the State being represented.

An address was adopted taking strong grounds in favor of impartial suffrage, and resolutions to the same effect were passed.

In the evening a mass meeting was held, and James W. Scovell and others delivered speeches which were loudly applauded.

MEMPHIS, July 23.

Cholera is decreasing here.

Accounts from Arkansas represent the disease as prevailing on the plantation in the vicinity of Pine Bluff. One planter lost 25 hands last week.

The crop reports from Arkansas are very encouraging. Fully two-thirds of the lands under cultivation this season have been planted with cereals.

WILMINGTON, N. C., July 23.

A train going west on the Wilmington & Manchester R. R. last night, ran over and killed two women near Timmonsville.

WASHINGTON, July 23.

The special agent of the Treasury Department at Galveston, Texas, under date of July 16th, reports that owing to the prevalence of yellow fever at Indianola, which has assumed an epidemic form, all commerce with that port has been suspended, and that no mail had been received there since the 5th inst.

BOSTON, July 23.

The new steamship Ontario, of the American Steamship Company's line of packets between this port and Liverpool, made a very successful trial trip to-day. She will be commanded by Capt. Frank Hallett, and is expected to sail August 5th on her first voyage.

SPRINGFIELD, Mass., July 23.

One of the students at Monson committed suicide by hanging [illegible] evening.—Mental depression, amounting almost to insanity, was the cause of the act.

SPRINGFIELD, Mass., July 24.

Mr. Gowing, a farmer residing at Ascutneyville, Vt., and his wife, were murdered on Monday night by a Frenchman, a former employee of Mr. Gowing, who beat their brains out with an axe. The murder was committed in the hope of finding money, for which the house was thoroughly searched. How much was obtained is not known. It is rumored that the murderer has been arrested. [illegible]

NEW YORK, July 23.

Money unchanged at 3 a 4 per cent on stock collaterals and 6½ a 7 per cent on prime discounts.

Gold quiet and steady, closing firm at 1,39⅞.

The shipments of specie to-morrow will probably aggregate a million and three quarters.

Liverpool, 23d—Evening. The cotton market is firm—sales 15,000 bales—middling uplands 10⅞, Orleans 10⅝.

London, 23—Evening. Sugar is steady—

WASHINGTON, July 22, 1867.

The impeachment committee held their final meeting for the present this afternoon. Only one unimportant witness was called.—The committee then adjourned to the 13th of November, which is one week before the time Congress meets. If further evidence is offered it will then be taken. The committee expect to have their report ready on the first day of next session. None of the testimony will be made public till that time if they can prevent it. The evidence taken prior to the adjournment in May has been printed, and is bound in a volume of about 800 pages, of which each committee-man has one copy only. The evidence taken since reassembling on the 26th of June makes about 200 pages of manuscript. This, with certain documents furnished on demand of the committee by the War and Treasury Departments, will be at once printed and sent to the members. The committee will also lay before the House, as material for use in their hands, selections amounting in the aggregate to two or three hundred pages from the New Orleans riot report, the southern railroad report, and various other special committee reports. It will be seen, therefore, that there will not less than 1200 pages of printed matter presented as testimony bearing upon the impeachment question.

Messrs. Wilson, Woodbridge, Lawrence and Churchill left this evening and Mr. Thomas this morning. The two democratic members have the privilege of examining one more witness to-morrow.

The officers of the Senate hold that so far as executive business is concerned the adjournment on Saturday was the termination of the session. All, nominations, therefore, that were not confirmed are in the same position as those that were rejected. There were about twenty of these, as is understood, including Messrs. Greeley, Capron, Lenon and Stillwell. The nominations of these gentlemen were not formally rejected, if there is any consolation in that fact, but they die because the Senate declined to act upon them.—[Sp. to Boston Adv.

Mr. James J. Spelman, the American Baptist, has just received a letter from Frederick Douglass, in which he announces the arrival at Rochester of his lost brother, Perry, and family. The letter concludes as follows: "The meeting of my brother after nearly forty years' separation, is an event altogether too affecting for words to describe. How unutterably accursed is slavery, and how unspeakably joyful are the results of its overthrow! The search now being made, and the happy reunions now taking place all over the South, after years of separation and sorrow, furnish a subject of the deepest pathos."

—Telegraphic communication will soon be established between Cuba and this country. The rates between Boston and Havana will be ten dollars for a telegram from one to twenty words, and fifty cents for each additional word. The cost of sending a telegram of from four to twenty words from Cuba to China will be $76.75.

—The health of John Bell is gradually failing. His mind is still clear, but the exhaustion of his physical system is extreme. He resides near the Cumberland Iron Works, in Tennessee, which were formerly a source of immense revenue to him. But the war wrecked his fortune, health and social and political reputation, and the old man is passing away from a generation with which it is his misfortune that he has no sympathies.

—Denver papers of the 11th and 12th are received. Two Smoky Hill stages had arrived on the 11th, bringing very large mails and one passenger. They brought important Indian news from down the road. Coaches, stations and teams had been attacked, and the soldiers were confident of having killed "Roman Nose," one of them having put his gun to his breast and shot him. Two Indians took off his pony, his body being tied to it.

—The "cities" of the frontier may be enterprising, but they are hardly [illegible]. A recent account of affairs in Western Kansas says: "Ellsworth is slowly recovering from the [illegible] [illegible]

LOCAL AND MAINE ITEMS.

—The Bangor Jeffersonian lays down the following rules for advertising in that paper:

No alternating advertisements will hereafter be inserted; nor large cuts, no deduction will be made from our advertised rates on advertisements published for a term longer than three weeks.

No advertisements from persons out of this city,—from newspaper agents or others,—will be inserted unless paid for in advance.

No advertising matter will be admitted in editorial columns.

FAIR WEATHER. Yesterday the sun deigned to make his appearance the first time for five days, and hay-makers were greatly rejoiced.

—A county convention of the Order of Good Templars will be held at City Hall on the 29th inst., at 10 o'clock, A. M.

—The Penobscot County Union Convention will be holden in this city on Thursday, August 22d.

RAPID GROWTH. Mr. Crosby Clements, a successful farmer at Kenduskeag, shows us stalks of corn fully *fifty-seven inches high*, which are now spindling out. The corn was planted on the 5th of June and cut the 20th of July, forty-six days from the time the seed was put into the ground. This is an average growth of nearly an inch and a quarter per day, and he informs us that his whole field shows more than a growth of an inch per day. He also shows some fine specimens of peas, fully filled out. We rather guess that these are the results of a good farm and intelligent cultivation.

HARPER'S MONTHLY for August has been received from Charles Hight. Accompanied by the usual illustrations is the following table of contents:—Personal Recollections of the War; The Turks, the Greeks, and the Slavons; A Pine Tree, The Dodge Club, of Italy in MDCCCLIX; Mr. Gregory; Conscience as a Detective; Port Hudson; A Reformed Ring Man; Eight Castles in Spain; Tom Marshall of Kentucky; Mr. Pullet's Mistake; Private Correspondence of Webster; Antagonisms; What Shall They Do to be Saved; The Beautiful Miss Newman; Editor's Easy Chair; Literary Notices; The Monthly Record of Current Events; Editor's Drawer.

BANKRUPTCY NOTICE. The regular terms of Register's Court in Bankruptcy for this Congressional District are as follows:

Bangor—(Mondays)—29th July, 2d and 30th September, 4th November, and 2d December.

Dover—(Tuesdays)—6th August, 10th of September, 8th October, 12th November, 10th December.

Houlton—(Wednesdays)—14th August 18th September, 16th October, 20th November, 18th December.

ALONG IN YEARS. The Press says that in Portland are a brother and two sisters whose united ages are *two hundred and eighty-five and a quarter years*—the oldest being 97¼ and the youngest 92¼. They are the oldest and only surviving children of Peter Thomas, who died in Portland in 1797 at the age of 53 years.

—Capt. A. Lane of Livermore was kicked by a horse a few days since, seriously damaging his nose and one eye. Three pieces of bone were taken out of his face. He is now doing well. The accident was occasioned by a broken holdback. A hay rack came against the horse's heels.

—A general convention of the several Young Men's Christian Associations in this State is proposed to be held either in Augusta, Bangor or Lewiston, during the month of October next. Committees have been appointed by the several associations in the State to confer upon this subject.

—Patents were granted last week to W. H. H. Walker of Bangor, for improved meat chopper; Seth Warren of Hollis, for improvement in wagon brakes; Seth Fletcher of Skowhegan, for improvement in water wheels.

—Gov. Chamberlain accepts the invitation to meet the editors and publishers of Maine at Saco on Thursday, 8th August, conditionally—if not detained at Brunswick by previous engagements for commencement week.

—The appointment of Charles P. Baldwin, late Lieutenant-Colonel 11th Maine Vols., to be Brigadier-General, for gallant services at the battle of Hatcher's Run, has been confirmed by the Senate.

—The Portland Press says that an attempt was made to set fire to the residence of Mr. Timothy Davis on Congress street. Fortunately it was discovered in season to prevent a disastrous conflagration.

—The Aroostook Sunrise states that a valuable mineral spring has been discovered on the farm of Francis Thibodeaux, Esq., of Madawaska. The editor in his vision sees a second Saratoga.

—The Journal says the drive of the Lewiston Steam Mill Company, which reached the booms on Wednesday of last week, contains about five millions of spruce and pine lumber.

—The Gazette says that Mr. Chas. White was seriously injured while catching a horse. Man and horse fell together, unfortunately the man underneath.

—The Good Templars of Westbrook propose to build a commodious hall the present season.

—The Republican County Convention in Androscoggin county will be holden in Auburn Aug. 18th.

—Mr. Jonathan Folsom has been appointed Postmaster at North Cornville, vice Almeda Jewell, resigned.

BUSINESS AT THE CUSTOM HOUSE. The gross amount of duties assessed during the fiscal year ending June 30th, 1867, was $7,862,650. Of this amount the duties collected were $986,818 17. The goods on which the residue of the duties were assessed, were either entered for transportation in bond to other ports in the United States, or were forwarded to the British Provinces. Tonnage duties and Hospital money for same period, $47,674 39.—[Portland Press.

If it is thrown in your teeth that you do not keep your dental apparatus in proper trim, it is your own fault, for all the world knows that you might do so by using that matchless vegetable dentrifice, SOZODONT.

Advertisement. july 24—eod3t

Among the confirmations by the Senate, on Saturday, were John Netherland of Texas, as Minister to Bolivia; also, the following Consuls: Benj. Tripp, Jr., of Massachusetts, at Santiago, Cape Verde Islands; [illegible] [illegible]

Twelve more Generals [illegible] [illegible]

PROTESTANT ASSOCIATION IN PARIS.—A recent letter from Paris by [illegible] Gal[l]audet, affords us the following information in reference to the Protestant Associations in Paris:

In the front rank stood the two Bible Societies. The old Protestant Bible Society has for its principal aim to give a Bible to give a Bible to every newly married couple, and a New Testament to every catechumen on his or her reception to Sacrament.

The issues of the last year amount to 10,000 copies; the receipts and expenses are under $7000 gold. The other institution of the same character is called Bible Society of France. The issues for last year amount to 7600 copies, and the expenses to $6500. Besides these exclusively French societies, the British and Foreign Bible Society employs an agent in France, M. Victor de Pressense, and by means of eighty-five colporteurs and sundry depositories, has sold, the past year, 84,800 copies of the Scriptures, at an expense of $17,000.

We have also a small Missionary Society that employs about half a dozen missionaries in the Basuto country in South Africa. They had already met great success among those wild men when a war broke out between the Basutos and their neighbors, the Dutch Boers of the Transoaal Republic.

We have two home missionary societies, one specially directed by the Free Church and another sustained by the orthodox section of the National Church.

To these societies we must add the German Evangelical Society, because its sphere of activity lies specially in France, where it has twenty-five stations and thirty-six preachers or colporteurs. It keeps up a theological school of some reputation, at Geneva. Merle d'Aubigne is one of its professors; Graussen, till his death, filled its divinity chair.

The Paris Tract Society has scattered 400,000 tracts during the last year, besides a Christian almanac of great value, called *almanach des bons conseils*, printed at 200,000 copies. It publishes, also, a monthly magazine called *L'ami de la Jeunesse Familles*, at the low price of eighty cents.

Our theological and original religious literature is poor, but is steadily increasing.—Our religious newspapers are few, have very small lists of subscribers, and do not merit any lengthened notice. We must not forget to mention our little Methodist publishing Concern in Paris. Its stock comprises only a very few volumes, but it will publish soon a very interesting life of Wesley, by M. Soliere, one of our Junior ministers.

The Sunday School Union, in which all parties and churches join, is a lively little society which hardly spends $5,000 yearly, but manages to publish very interesting and beautifully got up books, a splendid children's magazine, a stirring hymn book, and to keep besides a traveling agent to visit the schools and increase the interest in this work. In France there are about 80,000 Sunday scholars, and, judging by the number of Protestants, there ought to be five times as many.

AN INCIDENT. This afternoon the Hon. Mr. Judd, member of Congress from Chicago, to please some boys, bought a bunch of fire crackers, set them on fire, and threw them into the street, in front of Willard's Hotel. A policeman near by immediately arrested him for violation of a city ordinance of which he was ignorant, and took him before a magistrate. Senator Nye of Nevada appeared for him as counsel, who at once telegraphed to New York for Mr. Greeley to come on immediately and bail Mr. Judd. An answer was received from New York, that Greeley was out West bailing out the Mississippi and could not attend. Whereupon the justice remarked that for such an offence they usually fined *gentlemen* five dollars, but as he was only a member of Congress, he would let him off with a fine of $2,50, which Mr. Judd promptly paid.—[Wash. Cor. Sunrise.

In the Executive session of the Senate, when the nomination of Horace Greeley as Minister to Austria was announced, Mr. Sumner consulted with the members of the Committee on Foreign Affairs, and at once reported favorably on the nomination. The vote was being taken, apparently unanimously, in favor of confirmation, when Mr. Tipton inquired if he had not a right, under the rules of the Senate, to object to the consideration of a nomination on the day of its reception. Receiving an affirmative answer from the presiding officer, he "objected," and thus arrested proceedings. On being urged to withdraw his objection, as no other Senator opposed the confirmation, he declined positively, expressing his determination always to oppose the bailsman of Jeff Davis.

The rejection of Gen. McClernard leaves Mr. Plumb, now Secretary of Legation, Charge d'Affairs to Mexico.

—[Sp. to Boston Journal.

The appointment of Horace Greeley as Minister to Austria was, it is understood, made by the President without consultation with or suggestion from anybody. Mr. Greeley's friends here treat it as an insult, and say he does not want and would not have the office. The question of confirming him went over to the winter session.

Gen. McClernard of Illinois, as minister to Mexico, and Marcus Otterburg, as secretary of legation, were both rejected, as were Gen. Loomis of Michigan for minister to Hayti, and Col. Ward Lenon, the former marshal of this district, for Consul-General at Havana.

The nomination of John Natherland of Tennessee, as minister to Bolivia, was confirmed, and those of Col. Horace Capron of Illinois, as Commissioner of Agriculture, and T. N. Stillwell, formerly a member of Congress, and one of the original founders of the Johnson party, as minister to Venezuela, were sent over to the next session.

[Sp. to Boston Jour.

Ex-Gov. Herschell V. Johnson of Georgia is violently opposed to reconstruction, but seems to be rather hopeless. He says "the President is powerless," the Supreme Court "bows to the black surge of radical fanaticism," and that his only hope, "and that not sanguine, is in a possible reaction among the people of the North and Northwest." Truly, he has no reason to be sanguine.

Registration returns from nearly half of Alabama show great indifference on the part of the whites. Only 14,000 whites have registered to 32,000 blacks. Registration closed in Nashville, Tenn., on Saturday. Six thousand voters have been registered, of whom sixteen hundred are whites.

—The census of the Cherokee nation amounts to only 13,156, being a falling off of 20,000.

The steamer Antelope, from Fort Benton, was fired into recently by the Indians below Fort Buford.

Fire Insurance.
D. M. HOWARD
RESPECTFULLY invites attention to the following FIRST CLASS
Fire Insurance Companies,
Represented at his Agency:

Hartford,	of Hartford, Assets	$1,700,000
Home,	" New Haven, "	1,500,000
Phœnix,	" Hartford, "	1,200,000
Putnam,	" Hartford, "	700,000
No American,	Hartford, "	500,000
City,	of Hartford, "	500,000

These Companies are among the oldest and most reliable in the country, having passed through the "fire ordeal" of the last two years with their Capital unimpaired, and paying all their losses with honorable promptitude and liberality. Their rates for insurance are always as low as those of any other first class companies.
Parties desiring insurance against loss or damage by fire, are respectfully invited to confer with the Subscriber either personally or by mail.
Policies upon first class Dwelling Houses are issued for a term of five years at lowest rates.
All losses will be promptly adjusted and paid at this Agency.
D. M. HOWARD,
GEN. INSURANCE AGENT,
July 6. 3w Opposite Penobscot Exchange.

Dr. Schenck, the Lung Doctor.
The Proprietor of SCHENCK'S PULMONIC SYRUP, the inventor of SCHENCK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough, is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that caused the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5. His medicines are for sale by all druggists and dealers, also, a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic each $1,50 per bottle, or $7,50 the half dozen; Mandrake Pills 25 cents per box. GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists. dec 1 ... 1y

Dr. Schenck on Dyspepsia.
SYMPTOMS, CAUSES AND REMEDY.
Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach. [illegible] Schenck's Seaweed tonic dissolves this mucus or slime, and restores the stomach to its natural condition.
Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid; it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.
Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked-up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all of the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this toxic condition of the blood. [illegible] [illegible]

Hotel and Store Property at Auction.
The subscriber wishing to change his business, will sell at public auction, on TUESDAY, August 13th, 1867, at 10 o'clock A. M., his House, Store and Stable, Sheds, &c., situated on the Avenue Road in Levant, nine miles from Bangor. Said house and store is forty by fifty, two stories high, and all finished throughout, and is in good condition. This is one of the best locations for a Hotel in Maine; has a well of excellent water that supplied water for seventeen families during the great drought of 1865 and 1866. The Lot contains about one acre of land.
—ALSO—
One large Cooper Shop, and lot containing about one acre of land. Said Shop is 40 by 50, and has a basement built of cedar and brown ash, that will hold about twelve hundred barrels. Also one storehouse on the lot. This is one of the best chances for a Carriage-maker and repair shop to be found in the country. Also, a lot of land adjoining, containing about one acre.
There is no incumbrance on this property.—A good title will be given. Terms of sale—half cash, and the balance in one and two years, with interest.
—ALSO—
1 Gray Mare, eight years old, sound and kind, and a great roadster—weighs about 900 lbs.
1 second hand Buggy—Whiton's make.
1 Lumber Wagon.
1 Red Pung—Downe's make.
1 Horse Sled.
1 Team Harness.
1 Single Wagon Harness.
1 Buffalo Robe—lined.
2 Shawl Robes. Lot of Groceries, Furniture, &c.
Please call in and look over the property, and attend the sale. J. R. SAWYER, Proprietor.
JOHN B. FOSTER, Auctioneer.

A Dream of Summer

BY JOHN G. WHITTIER.

Bland as the morning breath of June
The southwest breezes play
And through its haze the winter noon
Seems warm as summer's day
The snow-plumed angel of the north
Has dropped his icy spear
Again the mossy earth looks forth
Again the streams gush clear

The fox his hillside cell forsakes,
The muskrat leaves his nook
The bluebird in the meadow brakes
Is singing with the brook.
"Bear up, O Mother Nature!" cry
Bird, breeze and streamlet free
Our winter voices prophesy
Of summer days to thee."

So, in these winters of the soul
By bitter blasts and drear
O'erswept, from memory's frozen pole
Will sunny days appear
Reviving faith and hope, they show
The soul its living powers,
And how beneath the winter's snow
Lie germs of summer flowers.

The night is mother of the day
The winter of the spring
And ever upon old decay
The greenest mosses cling
Behind the cloud the starlight lurks
Through showers the sunbeams fall
For God who loveth all his works,
Has left His hope with all

Colorado—Its History and Condition

The Springfield Republican has an interesting letter from Centeral City, Colorado from which we extract the following

"The growth of the territory commenced in 1859 with a few adventurous miners whose numbers were speedily augmented as soon as the wonderful richness and extent of its mines were proved beyond doubt, till, in the fall of 1859 and spring of 1860 thousands of miners and settlers, with their families swarmed across the plains, and commenced reaping the rich harvest of gold and silver which had lain hidden in the mountains for centuries The population rapidly increased as new mines were opened till now in the space of seven years it amounts to upward of thirty thousand, which number will soon be doubled as the railroad approaches, affording cheap and rapid transportation for passengers and freight

"Cities and towns were soon built all kinds of business established, and Central City, Nevada and Blackhawk sprung up like magic in the moutains Golden City at their base and Denver on the Platte river fifteen miles east of the mountains and thirty five from the mining region Colorado City, at the foot of Pike's Peak, Pueblo in the southern part of the territory, and Georgetown in the mountains, which has grown up and become famous within the past year from the exceeding richness of the silver mines in its vicinity, are all considerable towns Denver is regularly laid out has wide streets and many splendid brick blocks containing elegant stores Its private residences are neat and many of them handsome It contains between five thousand and six thousand inhabitants

The mines of Colorado have been proved to be rich beyond computation and so extensive as to be almost inexhaustible Many of them pay well in the old stamp mill process which saves less than 25 per cent, of the precious ores but with the new and improved processes for extracting the bullion, even if only 60 to 75 per cent, can be saved enough gold and silver could soon be taken out of the mines of Colorado to pay the national debts of America and England Two or three of these new processes which have been proved to be successful beyond doubt are being rapidly perfected and will soon be put in opperation, when a new impetus will be given to mining, and the rich treasures of these mountains will flow out more freely than ever Some of the best paying and most celebrated of these mines are the Burroughs, Bobtail, Bates, Brooklyn Gregory, Gunnell, Kansas Prize, Pacific Baker, Missouri and the Seerato (which is the eastern portion of the Burroughs) but others are equally rich among the gold lodes while the Anglo Saxon Nuchlos Franklin and others are well known silver lodes

Agriculture is carried on extensively in the valleys and along the productive bottom lands, though in many places the soil requires irrigation Wheat and oats are always good crops, and vegetables grow to an enormous size, while they retain their natural taste and flavor Stock raising is an important business the extensive plains of good grass affording free pastures for all In the southern counties cattle or sheep do not require housing during the winter, but find enough food and nourishment in the bunch grass that grows plentifully along the valley of the Arkansas Manufacturing bids fair to become an important interest woolen and paper mills are starting up at different points

"The climate is delightful and peculiarly healthy, especially for persons with weak lungs The air is pure and bracing, the nights are cool and but little dew falls The scenery about the Rocky Mountains is always beautiful The snow capped tops of the snowy range afford a refreshing perspective in the warmest days of summer The drawbacks of Colorado have chiefly been the foolish mismanagement of superintendents of mining companies, who were utterly ignorant of their business and whose only object seemed to be to spend the company's money in building expensive mills and filling them with impracticable machinery instead of working the mines and taking out the ore The other great injury to the territory has been the Indian difficulty, and that will disappear as soon as the railroad is completed to Denver, which will be in a few months The future of this favored country is exceedingly promising, and there can be no doubt that the brightest hopes of its well wishers will soon be realized"

Mr Editor —Having returned from a two month's travel in this State, as one of the Commissioners of fisheries and examined as many of the numerous rivers as our limited means would admit,—leaving a small margin to be expended in procuring the spawn of Salmon for fall planting,—and thinking the public would like to hear from their servants I will submit for their information, some of our researches into this important branch of destroyed wealth in New England The information we have thus far been enabled to collect from Great Britain France and Sweden From a letter received from Mr Thomas Auswerth at Yorkshire he says that no one cause can be adduced that has been so destructive to the English Salmon fisheries as that of mill dams and that no other evil so urgently calls for remedy that it is an evil capable of having a remedy applied to it as successfully as in Ireland where in 1863 the product of salmon in that one year was three hundred thousand pounds sterling or $1 500-000 Place the map of Maine by the side of that of Ireland, and what would Maine produce let the same effort be made here as there France has entered largely into fish culture and makes it more profitable than agriculture Dr Tefts our minister to Sweden, informed us that salmon were so plenty there that it was common food for the poor as well as the rich. The only rivers we have been enabled to give anything of a close examination to is the Mousam once a splendid river for salmon but destroyed by mill dams The Presumscot equally as productive for Salmon, Shad, alewives now extinct. The St Croix, one of the best salmon rivers in Maine and New Brunswick, has been much neglected but early restocked. All that is required is a uniform law, (it being the boundary) and that enforced —Next is the Kennebec the most noble river of Maine, and only about thirty years ago one of the most productive rivers for salmon, shad, alewives, trout and a variety of other edible fish to be found in New England, cut entirely by the erection of one mill dam at Augusta, where a fish way can be constructed at a trifling expense compared with the benefit that would be derived from the fisheries It seems to be quite decided by the Commissioners of the Fisheries of New England, and also public opinion that our salmon rivers must be cultivated in earnest Let us consider some of the details As when railways and street cars were first started, four-horse coaches and post-chaises of necessity became gradually extinct! So with the [illegible] rivers, [illegible] possible [illegible] movement [illegible] readers will refer to the late report of the Commissioners of Massachusetts and New Hampshire, upon the former abundance of salmon and shad, in the Merrimack, he will find very curious and interesting account of the [illegible] ... few years, if the work remains in hands of such men as Theodore Lyman, Esq., of Massachusetts and Judge Bellows of New Hampshire The legislature of Connecticut and Vermont have taken the matter vigorously in hand. The American Government has been driven to reform and may it roll onward until equal justice to all should no longer be withheld and the ancient blessings restored The thick of the fight will, for some little time be principally between the salmon owners and mill owners and it is to this point that we wish to draw serious attention Unless the salmon can get up to their breeding grounds we cannot expect the luxury The public have a right to demand that these prolific sources of food should no longer be dried up and destroyed by mill proprietors for their own private benefit, and at a loss to the rest of the community The Commissioners are authorized to inspect the mills, dams, examine the rivers, and to devise and report, on some remedy for the existing evils and they should be supported by the press, with all the power of its great sledge hammer, public opinion, to knock holes in the obstructing mill dams so that the fish may be able to pass freely through or over them, and the public be fed with good and wholesom food.

Maximilian's Life in Mexico—An Interesting Sketch A writer in the Paris Figaro, M d'Auvergne, who appears to have known the Emporor Maximilian in Mexico, contributes to that journal a few particulars respecting him M d Auvergne says

"Everybody will remember the portraits of this fair German, with blue eyes, light colored whiskers, and hair parted up the middle of the forehead right down to the neck Not only his photograph, but his bust by Danton, resembles him exceedingly

Desbarrolles was struck with the elegance and delicacy of his hands, with his long and tapering fingers He read in him a taste for science an ur concern for the gifts of fortune, a decided tendency for illusion, a love of power and pageantry, and, above all, a prodigious obstinacy, combined, however, with an irresolution which has unquestionably hastened on the destinies of the Mexican empire

Maximilian's taste for science was so strong that he was accused of shutting himself up at Chapultepec for the purpose of stuffing birds He has left behind him, in fact, some remarkable collections in natural history, which were the only things that the poor Archduke thought of saving and sending to Europe at the time the French Army took its departure

The Emperor rose regularly at four o'clock in the morning, and, dressing himself in a little gray suit—gray from the gaiters to the hat—sat down before his writing table, and only resigned his pen when at nine precisely his valet announced to him that breakfast was ready After partaking quickly of a frugal meal he returned to his interrupted work this, with an hour's reading, one or two audiences, and a council with his ministers sufficed to fill up the morning

At three o'clock the Emporor dined with his entire suite when the Court was at Mexico and with a simplicity which was almost citizenlike, when he and the Empress were at Chapultepec In the latter case there were usually three or four priests, the reception of whom was intimate The Emperor and Empress sat side by side and the guests took their seats at pleasure, each striving to be nearest to their Majesties, who did the honors of their table with an amiability, a cordiality, and a good humor that charmed every one

Three domestics only, served the dinner, at the conclusion of which the guests smoked without ceremony, some exquisite cigars made at Havana expressly for the Emperor who himself passed them round

The people by whom he was surrounded, were a most despicable set, and, as I should have much to recount to their disadvantage did I tell all I know, I will limit myself to two or three anecdotes Example—The Emperor had on his table a revolver damascened with gold, the handle of which was ivory and which had disappeared one day after a series of audiences at which the lowest in rank present was a Mexican general

The Empress, too allowed herself to be robbed of a couple of valuable gold watches by her own ladies of honor, and the same Colonel Lopez who has just immortalized himself at Quetar by betraying his chief, volunteered to the Emperor one day to remove from his bureau in less than a couple of hours time any object that might be pointed out to him, and this without being detected As for the bureau itself Lopez made a wager to remove it while the Emperor was out for his daily walk, and convey it to any other apartment that might be indicated Lopez was at this time commandant of the imperial chateau, and Maximilian laughed a good deal at these pleasantries One knows now the extent to which Lopez has since pushed them

At Mexico, the imperial household was placed on a most liberal footing The guard of the Emperor, known as the Palatine Guard, consisted of forty halberdiers clothed in a splendid costume, and was under the command of Count de Bombelle, a friend of Maximilian's almost from his infancy

The Emperor wore at all times the uniform of a Mexican general—black frock coat and gold epaulets and black trowsers tucked into long riding boots He usually wore the Order of Golden Fleece round his neck, and latterly the Ribbon of the Eagle, an order of his own creation together with that styled Merit When the institution of this latter order was under consideration, the Empress Charlotte had a spirited dispute with the French Emperor, who objected to the same color ribbon as that of the Legion of Honor being adopted When the arguments had been brought to an end—the discussion, it should be remembered, took place through the medium of a written correspondence—the Empress gummed on a piece of paper, three leaves of the flower of the wild poppy and wrote beneath them these words — I adopt for my order the tint of this flower which was created, I imagine before the Legion of Honor I myself read this sentence quite recently in a curious collection of autographs of the Empress Charlotte"

Highland Superstitions The Inverness Courier, a Scottish paper, refering to several instances of superstition which have been recently mentioned in its columns, says "Much akin to our late stories was an occurrence which happened within a year or so to parties in a glen not many miles distant from Iverness A man who was supposed to be bewitched by reason of his becoming bewildered and excited by the bad conduct of his wife was sent to consult a wise woman in our northern metropolis. After extracting a pound note from him, she thought it right that another fee of the same amount should be conferred on her friend Wilcox to whom a messenger was at once despatched with the money, and to explain the case —He came back with a bottle or two of Spey water sained' by the warlock, which was drunk or otherwise used, accompanied with profane incantations, but with what success our readers may easily judge The account in our last number of the parings of an epileptic patient being buried in the earth with a cock (we fear it is often a living bird) we believe to be quite true and to be a remnant of an ancient Pagan custom handed down from the times of the Romans, and to be only paralleled by what took place only a few years ago in a part of Morayshire, where it is well authenticated that a living bullock or cow was burnt alive with the view of stopping an epidemic among cattle It is time really that something was done to wipe out this disgrace on our day and country"

Platte River Scenery A correspondent of the Cincinnati Commercial has recently made a trip over the Union Pacific Railway, and thus graphically and truthfully describes the scenery along the Platte river

"There is no other railroad in the world where the scenery is so monotonous. A treeless valley is the Platte, shut in a few miles on either side by naked slopes and mounds A broad, thin river skims the southern part of the valley, a river of swift current, but so flimsy in depth that its progress is tormented with ten thousand islands whose natural [illegible] stunted growth of cottonwood trees, the only forest plumage in sight. For two hundred and ninety miles the railroad skirts the northern rim (it can hardly be said to have banks,) of this feeble big river. The same view apparently meets the eye when you awake in the morning that you saw the evening before, though in the meantime you've rolled westward a hundred and fifty miles — You are still in a level valley, environed by [illegible] ... their [illegible] they make." It [illegible]

New and Fashionable Clothing,

AT GREATLY REDUCED PRICES,

CANCERS CAN BE CURED!

DR. L. CHASE,

(LATE OF PORTLAND),

THE CELEBRATED

INDIANOPATHY, CANCER & HUMOR DOCTOR,

HAVING purchased the residence of H A Wood 54 Hammond Street, Bangor, Maine would be happy to be consulted by all who are afflicted with

Cancers, Cancer Humors, Tumors Scrofula, Leprosy Salt Rheum Fits, Neuralgia, Bronchial Affections, Catarrh, Rheumatism, Sick Headache, Liver Diseases Female Weaknesses Piles, Diseases of the Throat and Lungs Diseases of the Kidneys, Stiff Joints, Gravel Diabetes &c, &c

Dr. Chase has practiced in his profession for sixteen years, and in that time has spent two years in Florida and Cuba, for the purpose of gaining a correct knowledge of the most efficient remedies used by the various tribes of Indians of that country, and by great expense has gained many valuable secrets which have heretofore been unknown to the world

In Cancer he claims superiority over all other Physicians of the age, for he never fails to perform a cure when taken in a proper stage

His mode of curing Cancers is by the application of a plaster, which is strictly vegetable and will have no effect upon the healthy flesh and in no case uses a knife as does Dr Greene of Boston

He also boldly asserts that he can tell every individual their disease and location of their pains and describe their feelings in almost every case, more minutely than they can possibly themselves

Dr Chase is not a Clairvoyant, but conducts his examinations on a strictly scientific principle and will challenge any professed medium for a test examination

Office hours from 9 A M to 8 P M Office at residence No 54 Hammond Street

November 7 1866 d&w

FISK & HATCH,

BANKERS,

AND DEALERS IN

Government and other Desirable Securities

No. 5 Nassau St., N. Y..

recommend to investors the

First Mortgage Bonds

OF THE

CENTRAL

Pacific R. R. Co.,

This Company is constructing under the patronage of the

UNITED STATES GOVERNMENT,

the Western end of the

Great National Railway across the Continent

Their line will extend from Sacramento California, across the Sierra Nevadas to the California State line, traversing the richest and most populous section of California, and thence through the great mining regions of the Territories, to the vicinity of Salt Lake City

It forms the sole Western link of the only route to the Pacific, which is adopted by Congress and aided by the issue of *UNITED STATES BONDS*

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading Tunnelling &c, beyond that point has been accomplished

The FIRST MORTGAGE BONDS of the Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons viz

First. The rate of interest is *Six per Cent in Gold*, payable semi-annually in the City of New York

Second. The *Principal* is payable *in Gold* at maturity

Third The cost of the Bonds, *Ninety five per Cent.* and accrued interest, is *Ten Per Cent* less than that of the cheapest Six Per Cent Gold Bearing Bonds of the Government.

Fourth The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re payment

Fifth, Owing to this liberal provision, accompanied with *Extensive Grants of Public Lands*, by which the Government fosters this great national enterprise, *its success is rendered certain and its financial stability is altogether independent of the contingencies which attend ordinary railroad enterprises.*

Sixth The Security of its *First Mortgage Bonds* is therefore *ample*, and their character for safety and reliability is equalled only by that of the obligations of the *Government itself*

Seventh. The net earnings of the completed portion are *already largely in excess of the interest obligations which the Company will incur on twice the distance*, and are steadily increasing, rendering the *uninterrupted payment of the Interest absolutely certain.*

Eighth At the present rate of Gold they pay nearly 8½ *per cent* per annum, on the amount invested

The Bonds are issued in denominations of $1 000 with semi annual Gold Coupons attached payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

FISK & HATCH,

An Invaluable Medicine for the Purifying of the Blood

Dr. J. W. POLAND'S

HUMOR DOCTOR,

A POSITIVE REMEDY FOR ALL KINDS OF HUMORS,

PARTICULARLY

Erysipelas, Nettle Rash, Salt Rheum, Scrofula, Carbuncles, Boils & Piles

IT IS VERY EASY TO SAY OF THIS, OR ANY other Medicine, 'It is the very best Remedy known' It is not always so easy to prove it It is, however, exceedingly gratifying to the proprietor of this Medicine, that, while he declares to the public that this is a most wonderful and effective Specific for Humors as stated above he has abundant proof at hand to sustain his statements

For sixteen years the HUMOR DOCTOR has been manufactured and sold and every year has increased the value of its reputation and the amount of its sales In New Hampshire, where it was originated, no remedy for Humors is so highly prized — An eminent physician (now an army surgeon) when practicing in N H purchased between fifty and sixty gallons of it, during seven or eight years, and used it in his practice He has since then ordered it for the hospital where he was stationed Other physicians have purchased it, and have used it in practice with great success When the proprietor lived in New Hampshire at Goffstown Centre for the space of thirty or forty miles around and in Manchester particularly, the Humor Doctor was well known and highly valued for the numerous and wonderful cures which it effected Though manufactured in large quantities, the supply was frequently exhausted, and purchasers had to wait for more to be made In that region some very severe cases of *erysipelas* were treated with it,—and *they were cured* Erysipelas sores or carbuncles those ugly painful ulcers, were entirely removed wherever this medicine was faithfully used So it was with *Scrofula* and *Salt Rheum* The Humor Doctor cured them

Since the Proprietor's removal to Melrose Mass his present residence, he has been regularly selling to patients who have applied to him in person and has been very successful in relieving and curing them One case of Erysipelas—of an old man 72 years—is worth mentioning in particular When he came to the Doctor's office he could only wear a pair of old rubber overshoes his feet and ankles were so swollen and sore When he pulled off his socks the scales came with them and the raw, bleeding feet, were frightful to behold. Suffice it to say, that less than one dozen bottles of the Humor Doctor (and in a few weeks) healed up those feet and ankles, so that they were smooth and apparently sound. The man wore boots without inconvenience. Numerous cases of *pimples in the face* have been treated with this medicine to the entire eradication of them In Melrose alone there are more than a hundred persons who have used the Humor Doctor, and give it an excellent name. In all the towns around it is well known and approved.

For the sake of showing what is thought of it, a few testimonials are here inserted

MILTON GALE, ESQ., Boston

I hereby certify that I was sorely afflicted with boils for two years, developing themselves upon my limbs, and other parts of my body The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr J W. Poland's Humor Doctor, and am very happy to attest that all my boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.

MILTON GALE.

Boston, January 11th, 1856.

MRS WHEELER, Stoneham, Mass.

I very confidently and earnestly recommend Dr J W Poland's Humor Doctor as an excellent remedy for Humors, having been wonderfully benefitted by it myself. My own case was a very severe and obstinate one. For more than two years the skin upon the inside of both my hands, and even down on the wrist, was constantly cracked and broken up, so that I was unable to use my hands in any kind of wet work, and was obliged to wear gloves in sewing to avoid getting blood upon my work.—The humor which so afflicted me was probably a combination of Erysipelas and Salt Rheum My general health was quite poor, Soon after I began to use the *Humor Doctor*, I could perceive signs of healing I continued to take the medicine till I was finally cured. My hands are now perfectly free from humors, and to all appearances my whole system is clear of it, and has been for several months. I used eight bottles before I felt safe to give it entirely up, but they cured me.

MARGARET WHEELER,

Stoneham, Mass., July 5th, 1866.

Price 75 cents per Bottle.

This invaluable Medicine will be prepared for the present at the

New England Botanic Depot, Boston,

Under the supervision of DR. POLAND, for the Proprietor. J. G. FRENCH,
